In the Matter of

Wireless Strategies, Inc. Request for a Declaratory)
Ruling on Compliance of Fixed Microwave) WTB Docket No. 07-121
Antennas Having Distributed Radiating Elements)

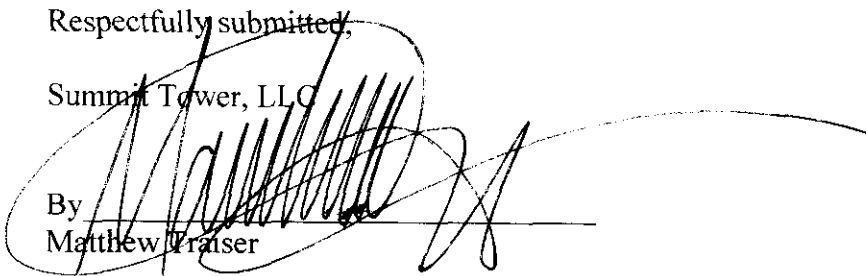

**SUMMIT TOWER, LLC'S
PETITION IN SUPPORT OF WIRELESS STRATEGIES REQUEST
FOR A DECLARATORY RULING**

Summit Tower, LLC strongly supports Wireless Strategies, Inc. (WSI) Request for a Declaratory Ruling on Compliance of Fixed Microwave Antennas Having Distributed Radiating Elements.

The introduction to the market place of smart antennas with distributed radiators to increase the effective use of spectrum by reusing licensed frequencies, without causing additional interference and which can be deployed under existing FCC rules, aids tower companies because it simplifies the carriers deployment backhaul requirements into the marketplace, allowing build outs and network deployments through a solid business plan.

Respectfully submitted,

Summit Tower, LLC
